

# Divya - Professional Portfolio

## Professional Summary

I am an undergraduate student at Malla Reddy University pursuing a degree in Data Science. I am passionate about learning new skills and exploring emerging technologies. My curiosity and enthusiasm drive me to continuously expand my knowledge in programming, analytics, and modern development tools. I enjoy working on real-world projects that help me apply theoretical concepts to practical applications.

## Skills

Java, Python, HTML, CSS, React, MongoDB

## Education

B.Tech in Data Science, Malla Reddy University

## Projects

- 1. Scholar Sync** – A job searching platform designed to help students and job seekers easily find opportunities.
- 2. Crime Data Analysis** – A data-driven project analyzing crime patterns to derive insights using analytics tools.
- 3. Travel App** – A mobile-friendly application designed to simplify travel planning and destination discovery.
